

Meeting Number 2:
Start: 17:40

Benjamin: So, um, things we need to do. Next term, we need to have an AGM. For the next comitte to get things sorted properly, we might need to write a manual.

Izzy: I don't think that matters at this point, does it say when we have to do an AGM.

B: And then the big problem, is if the Audit is comming up is it after 6 months? We are currently on 10 members.

I: We can put out a call on the group chat.

B: I talked to Mat and he said he would try and see if we can get an excemption.

I:

B: Looking on to next term, should we keep the frequency the same.

I: I think that's right.

B: We could move it to every two weeks.

I: That works too.

B: That would be two more per term.

I: That's fair enough.

B: For times, we have been doing evenings and those have worked well enough, but other people were asking about trips and weekends.

I: We could do that in addition to the weekday evenings.

B: I know you want to plan a walk Oscar.

O: Oh right yes.

I: I know societies plan a mixture of events like social meetings for volunteers.

[Interlude to hand around and sign paperwork - I don't know what any of it is for]

[Following that the committe looks online at the membership to work out who can be convinced to sign up to the society]

B: Finally are there any monetary issues you want to raise Izzy.

I: No

B: The only thing to be is we haven't received the start up payment of £60, might be worth pursuing.

[General murmurs of agreement]

B: And finally are both of you happy with your roles.

I: Yeah I can do more

O: Me too.

B: Alright I guess we're done.
